The application must be received by the close of business of the date published on our website. As a rough guidance these are usually in February, May, August and November but these dates are subject to change. Any changes are notified on the website. You will be notified of the Trustees decision on your application within one week of the meeting date.

In order to enable the Ebico Trust to continue funding projects, such as yours, to help people in fuel poverty, Ebico needs to continue to be commercially successful as an energy provider. As such, we ask all Trust funding recipients who intend to use community interventions, to help us promote the impact the funding – and your projects – has on the lives of individuals and organisations challenged by these issues. We hope this will raise awareness of the issue, and drive interest in Ebico and the Ebico Trust amongst ethical consumers who want to help.

The Ebico Trust works with other charitable organisations with similar objectives. Please be aware that, from time to time, the Ebico Trust may share, with other trusts, those grant applications which the trustees believe may better match these other trusts' selection criteria.
