

# **Ebico Zero Green Fixed v4 energy plan**

## **Terms and Conditions**

### **1. Additional Tariff Terms**

- 1.1 These terms and conditions ("Tariff Terms") apply to all customers on the Ebico Zero Green Fixed Tariff v.4 ("Tariff").
- 1.2 These Tariff Terms are in addition to our Terms and Conditions for the Supply of Gas and Electricity to our Domestic Customers ("Supply Terms").
- 1.3 Terms which are not defined in these Tariff Terms will have the same definition as in the Supply Terms.
- 1.4 If there is any inconsistency between the Tariff Terms and Supply Terms, these Tariff Terms will prevail.
- 1.5 In accordance with the Supply Terms, your contract for the supply of energy will be with Robin Hood Energy Limited.
- 1.6 This Tariff does not include a standing charge (paragraph 2.4(a) of the Supply Terms does not apply) but requires you to meet a minimum overall spend ("Annual Billed Value") for each of the metered energy supply points you have. The Annual Billed Value for each fuel element is as follows:
  - a) Electricity: £52.00 per year (equal to £0.14247 per day), each figure includes VAT.
  - b) Gas: £104.00 per year (equal to £0.28493 per day), each figure includes VAT.
- 1.7 This Tariff is subject to availability, and we may choose to withdraw it at any time.

## 2. About Your Tariff

2.1 At the end of the 12 month fixed term:

- a) If you have a live meter point for electricity and the total billed for electricity consumption is less than the required Annual Billed Value of £52.00, then your account will be debited with the difference between the amount actually billed and the Annual Billed Value ("shortfall").
- b) If you have a live meter point for gas and the total billed for gas consumption is less than the required Annual Billed Value of £104.00, then your account will be debited with the difference between the amount actually billed and the Annual Billed Value ("shortfall").

2.2 If you wish to leave this Tariff before the end of your fixed 12 month term, the Annual Billed Value will be calculated on a pro-rata basis, based on the number of days' your supply point/s was/were active under this Tariff, and any shortfalls will be debited to your account.

2.3 We will not apply this Annual Billed Value requirement if you leave this Tariff during your cooling off period.
